C-3RVAM/3RVAM

3 RCA to 3 RCA Cables (1 RG-59)

Kramer 3RVAM series are high quality 3 RCA cable assemblies designed for video and stereo audio signals. They are perfect for connection of DVD players, VCR's, and consumer style display devices which are routinely used in professional AV systems.

FEATURES

- **Quality Cable** - Constructed using high-quality 75Ω RG-59 for the video, and two smaller stranded conductors for L/R audio signals.
- **Precision Connection** - Gold plated RCA connectors are featured for the best possible signal transmission without corrosion.
- **Varied Selection of Lengths** - Available in 3, 6, 10, 15, 25, 35 and 50ft versions (0.9 to 15.2m).
