

C-MRVM/MRVM

Mini Coax RCA Video Cable

Kramer's MRVM series cables are micro-sized video cables with male RCA connectors at both ends. They are ideal for short to medium length composite video applications when an extremely small profile and maximum flexibility is desired.

FEATURES

- **Quality Construction** - Built from compact, durable and flexible 28 gauge mini coax cable with molded RCA connectors.
- **Compatibility** - Use this cable to patch together sources and destinations which use RCA connectors for video signals.
- **Varied Selection of Lengths** - Available in 1, 2, 5, 3, 6, 10, 15 and 25ft versions (0.3 to 7.6m).
